PROCESS

코리나의 뛰어난 기술을 구현한 고품질 제품공정

The philosophy behind each product goes beyond simple functionality, realized through designs that reflect the user's lifestyle and the overall atmosphere of the kitchen.

01

유압 로봇 이송장치

The hydraulic automatic transfer system is an automated system that efficiently transports raw materials within the production facility.

02

레이저 커팅

Laser cutting technology enables precise product trimming without burrs, maintaining product quality. Compared to traditional cutting methods, it provides faster speed and higher accuracy, improving productivity and efficiency.

03

로봇 이송장치

To maintain high product quality, a hydraulic robotic transfer system is installed to handle various tasks during the production process quickly and accurately, enhancing productivity while ensuring product quality and safety.

다양한 구조에 맞춘
사용자 중심 설계,
코리나를 통해 당신의 주방을 완성해보세요!

A broad selection of sizes designed for every kitchen structure.
Whether for a small space or a wide island kitchen,
KORINA provides the perfect fit for maximum efficiency
